Yes, I met with Paul Anastas and Lisa H. on this some months back, so I knew the status of it then. Unless there is some new development, I do not think it should be on the agenda.

OECA/ORD quarterly agenda

### Cynthia/Catherine/Matt;

Attached please find the draft agenda for the inaugural quarterly meeting with ORD. ORD offered no additional topics for discussion. As with last month's meeting with OEI, I included some time for introductions and to discuss the purpose of the quarterlies. What are your thoughts and/or comments on the attached draft? The ODs haven't seen the agenda: we are planning to include it with the materials for tomorrow's OD meeting.

Please advise, Kyndall

OCEFT gave us a document with detailed review of the alternative asbestos control method at last OCEFT weekly so that's a good place to start.

Have not had as chance to review, but this arose in the context of a request for no action assurance to test the so-called "Fort Worth" wet demolition message. Will make sure that it is controlled to the correct office depending on the letter's content.
